SECOND INTERNATIONAL  
CONFERENCE OF YOUNG  
SCIENTISTS

**“Chemistry Today”**

**WELCOME**

Organizing committee is pleased to announce that Second International Youth Conference – “Chemistry Today” will be held on April 21-23, 2012 in Tbilisi, Georgia.

Conference is organized by Faculty of Chemical Technology and Metallurgy of the Georgian Technical University and Professional Association of chemists of Georgia.

The meaning of chemistry is very important in everyday life. It plays a central role in permanently growing and widening chemical industry as well as in such fields as health care, nutrition, environment protection, energy sector, transport, etc.

The goal of present conference is finding many opportunities to exchange scientific views and ideas as well as promotion joint collaborations.

Our understanding of material world and of the fact how chemistry solves lots of actual modern problems depends on our knowledge, responsibility and ability of application of discoveries.

Achievement of these goals, in the first place, is related to the future of chemical science – the young generation of scientists who must stand in the forefront of new discoveries and innovative researches.

In the work of the conference we would be glad to see the chemical companies as participant or guests.

Finally, once again we cordially invite all of you to join the vital and fruitful discussion in all fields of modern chemistry.
